Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: AR Collier stated that the English Abstract and figure 2 of the Matsui reference does not show a hermetically sealed inner space of the substrate. The Examiner stated that Matsui in at least figure 2 etc. shows the hermetically sealed substrate and further the hermetical seal is well known in the art. The Examiner will get a translation of Matsui reference. AR Collier will submit pages/ lines from the specification that hermetically sealed is allegedly not well known. *js*
